

I'm writing in regard to KLove Radio and the affect that LPFM may have on them. KLove is an important and positive contributor to our local community and communities across the US. I've listened to them on translators throughout Ohio, Oregon and Colorado.

KLove provides a safe, family friendly radio alternative not present with most FM stations.

KLove's service is in the public's interest and I ask that you not introduct LPFM as a new service that takes priority over translated signals.

Thank you.
